## Bus Strike Is Cause Of Delay In Draft Exams

Men Scheduled For Monday To Go Later Date

The bus drivers strike caused a postponement in the Marshall County draft call quota being up for pre-induction physical examination.

The group scheduled to have Monday was held up and the date has yet been set for them, according to "Toad" Brien, clerk of the board.

Those scheduled to go are: Treas. Brewster; William Elva Route; Robert McCoy, Calvert City Route; Thomas Mathis, Benton Rt. 1; Harold Grigg, Calvert City Route 2; Roy Travis, Benton; James Andrus, Benton Route 1; Charles Wilkinson, Calvert City Route 2; and Milton Boulard, Benton Route 2.

The local board has received word as to the total call for Marshall County for the month of September.

A report from the state service headquarters has been received stating that the school call will be greatly increased over previous quotas.

## Marshall County Has 17 Known TB Cases Report Says

Today in Marshall County there are 17 known cases of tuberculosis with 33 people in the 17 families being exposed to the disease. In 1949 two people died of tuberculosis in Marshall County and left 8 people exposed to the disease. Will develop tuberculosis? They may, unless they see their doctor regularly for examination and x-ray, at least once a year.

The next several articles will be "food handlers." It is pointed out that food handlers will be between the department and the community as well as create a feeling of confidence in the community toward the work of the health department in being of food sanitation.

## Correspondent At Palma Says That Is A Live Burg

This little burg is a live wire school going on in three school buildings with two principal Clarence Henson and May Ferguson. This school was a new pump in the school water system. It now seems to be with the tip off about the time, and a big sign "Live Burg" is the Palma along here.

Those parked at the garage and trailers all the time. The Dunn residence is all prettied up with plastic chair coverings, table tops, they also have yellow uniforms for wait-

Miss Cattie Lou Miller, secretary to Governor Clements, displays Kentucky's 1951 automobile license plate.

Miss Miller, modeling this preview of the new license plate, was a school mate of Jack Jennings of the Style-Mart Store in Benton.

The state slogan "Tour Kentucky" is the first one to appear on Kentucky license plates in several years. All 1951 passenger car plates will bear this slogan.

## Sharpe F. F. A. Gets New Season Going

Meeting Held At School Thursday Was Opening Gun

By B. M. Riley  
The Sharpe Chapter of Future Farmers of America opened the school program there, Monday night, August 28, at which time the faculty was welcomed by a number of parents and many students.

The chapter gave an officers report which explained to parents, faculty and students what the chapter has been doing the past three months, and what it is going to do during the coming school year. It also explained what the F. F. A. is and what it means to members.

Included in the program were speeches by Mr. Boone Hill, chairman of the Marshall County Board of Education, Mr. John Johnston and a number of other visitors and parents.

The officers officiating at the meeting were President, Leroy Darnell; Vice-President, Ralph Campbell; Secretary, Dean Henson; Treasurer, Shirley Downs; Reporter, Martin Riley and Advisor Cecil Spiceland.

## Calvert City PTA Will Meet Monday

The Calvert City unit of the Parent-Teachers Association will meet at 7 p. m. Monday, Sept. 11.

The meeting will be at the Calvert City High and all parents are urged to attend.

Mr. and Mrs. Dal Riley and daughter, Margaret and family, spent Sunday in Paris.

Mr. and Mrs. S. C. Davis of Dixon, Ky., Mr. and Mrs. Jess Hedrick of Benton, spent the holiday in Leachville, Ark.

Mr. and Mrs. A. N. Hale and son, Junior, of North Hollywood, Calif. are spending two weeks here with their parents, Mr. and Mrs. A. D. Hale.

Mr. and Mrs. S. C. Davis of Dixon, Ky., Mr. and Mrs. Jess Hedrick of Benton, spent the holiday in Leachville, Ark.

Mr. and Mrs. A. N. Hale and son, Junior, of North Hollywood, Calif. are spending two weeks here with their parents, Mr. and Mrs. A. D. Hale.

Mr. and Mrs. S. C. Davis of Dixon, Ky., Mr. and Mrs. Jess Hedrick of Benton, spent the holiday in Leachville, Ark.

Mr. and Mrs. A. N. Hale and son, Junior, of North Hollywood, Calif. are spending two weeks here with their parents, Mr. and Mrs. A. D. Hale.

Mr. and Mrs. S. C. Davis of Dixon, Ky., Mr. and Mrs. Jess Hedrick of Benton, spent the holiday in Leachville, Ark.

## Lions Club Parking Meter Plan Praised

Missouri Tourists Say It's The Nicest Thing Ever To Happen To Them In All Their Travels

The Benton Lions Club parking meter courtesy plan got in operation a couple of days ago.

The plan of watching for out-of-county cars overparked so that tourist could be saved the embarrassment of receiving parking tickets, and thereby gain favorable publicity for Benton and Marshall County, is being given a two months trial in Benton in response to a series of editorials published in the Tribune-Democrat.

When a Lions Club member sees a foreign car with the parking meter showing violation, he will insert two pennies in the meter and place a small coin envelope on the car with a short note from the Benton Lions Club telling the motorist what has been done and asking them to return to Benton often.

The first day the plan was in operation a couple of Missouri left word with Pat Moore of Moore's Cafe to convey their thanks and appreciation to the Lions Club and to tell them that it was the nicest thing that had ever happened to them in all their travels. Another tourist praised the courtesy of Raymond Vick of the Corner Cut Rate Store.

It is hoped by the Lions Club and Benton city officials, who are cooperating, that the plan will create a large amount of this type reaction and will get the name of Benton and Marshall County spread throughout the country as a friendly community and a fine place for tourists to stop, it can mean many thousands of dollars in added revenue for the community.

## D-NUT DUNKING MACHINE BEING RENTED TO FAIR

The D-Nut Dunking machine operated at the Marshall County Agricultural Fair by the Benton Lions and Rotary Club gained much wide publicity for itself that it is now making an appearance at another fair.

The Kuttawa Rotary Club rented the equipment from the local clubs for use at the county fair there. They are paying a full 20 per cent of the gross proceeds just for the use of it.

An announcement has been made that all earnings of the machine will go in the fund for the community building at the Benton City Park.

## Program Planners Can Be Helped By Local Health Unit

Fall is in the air and clubs, schools and churches are in the process of planning their programs for the coming year.

In planning these programs, committee chairmen, church workers and teachers will find the Marshall County Health Unit a valuable source of aid.

The sanitarian is available for giving talks and showing films in his field; the nurse will be glad to participate on a program on nursing; and the health officer and other members of the staff stand ready to help.

Recent pamphlets which are available through the County Health Unit include Insurance, Diphtheria Can Be Prevented, No Danger from the Whooping Cough, Rheumatic Fever and Prevent Rabies. Pamphlets are also available on a wide range of other subject matter, from child care to the problems of oldsters.

Films on a variety of health topics are available from the Central Film Library of the State Department of Health. Orders for these films should be placed with the Marshall County Health Unit at least three weeks in advance of the date for their showing.

Of especial interest to teachers are two recently-acquired films: Motivating the Class and The Importance of Goals. Of more general interest are Preface to A Life, Human Beginnings, To Live in Darkness (a study of eye safety in industry) and Marriage for Moderns (a series of five films). Soon to be released for general distribution will be the film "So Much For So Little," an animated cartoon in color showing the services offered by county health units.

## Benton Commandery Meets Next Friday

A regular convocation of Benton Commandery No. 46 will be held Friday, September 15 at 8 p. m.

All Sir Knights are requested to be present.

Wayne E. Wyatt, Com. H. A. Riley, Recorder.

Mr. and Mrs. Marvin Prince of Lexington are visiting his parents Mr. and Mrs. W. L. Prince in Benton.

The Robert McKendrees were in Sparta, Tennessee for Labor Day.

The 1950 Miss Kentucky Dam contest will be held Saturday at West Gilbertsville under sponsorship of the Progress Club of Gilbertsville.

Pictured here is Miss Jean Kayes who was selected as Miss Kentucky Dam of 1949, she was at that time employed as a waitress at the Kentucky Dam State Park cafeteria.

## Benton High Class Of '46 Holds Meet

Was First Annual Gathering Of This Big Class

The 1946 graduating class of Benton High School held its first reunion Saturday August 26 at the Kentucky Dam Restaurant.

Following the dinner, a social hour and business meeting were held and plans for the second reunion, to take place in July, 1954, were made.

Mr. Buddy Harper was chosen as head of a committee on correspondence and the arrangements for the next meeting.

The following members and guests attended: Bill Lassiter, Barbara Lee Smith, O. A. Gant, Jr., Wilburn Sirls, Bobby Putter, Bobby Hiett, Paul Darnall, Mary Lou Chambers, Clarence Frazier, Joe Dan Draffen, William Fields, Helen Bernard, Ann Gatlin, Carl Milton O'Daniel, Mrs. Frank Dunn, Mrs. Buddy Harper, Mrs. Shelby McCallum, Mrs. Dean Cromer, Mr. and Mrs. Travis Downs, Mr. and Mrs. Tullius Chambers, Mr. and Mrs. Volney Brien, Mr. and Mrs. Johnny Brien.

Floyd Roberts was returned to his home in Benton Wednesday after undergoing observation and treatment in a Paducah hospital.

## Will Lester May Be Missing In Action In Korea

Letters addressed to Will Lester, who has been serving in Korea, have been returned to the sender at Hardin marked "Missing In Action."

No other word has been received here, however, the young lady receiving these returned letters informed the Tribune this week.

50-STAR FLAG—A fifty-state flag to be used when and if Alaska and Hawaii become states was exhibited in New York by William Hoffman, artist and designer. The flag has 49 stars in seven rows each. The 50th star is superimposed on the center star.

## City To Occupy New City Hall Bldg. Next Week

Have Been Using Office Space In Fire Station

Mayor Jim Kinney announced today that the city's administrative offices would move into the new city hall building next week.

During the time of demolishing the old frame city hall building and construction of the modern brick structure, the office of City Clerk Joe Williams, City Judge H. A. Riley and council chambers have been located in the fire station.

The city council held its regular meeting this week in the new building though it was not yet completed.

One side of the building is being occupied by the Bank of Marshall County while complete remodeling work is going on at their own building on the corner of Eleventh and Main streets. When the bank vacates the quarters they now occupy in the City Building the Hawkins Jewelry Store will move permanently into that location, it has been announced.

There will be a pie supper at Breezel School tonight (Friday) everyone is invited.

## 'Face Lifting' Brings Old Pastures Back To Thrifty Growth

PURDUE University agronomists recommend a "face lifting" in September for old, rundown, weedy permanent pastures. A good renovation program supported by liming and the use of commercial fertilizer can bring a pasture back to lush, vigorous production, they say.

First step in the program is a soil test for acidity and applications of limestone as needed.

The job of making a seedbed on an old sod can be satisfactorily done with a disc harrow or field cultivator, the agronomists say. The operation can be eased considerably by working the soil in one direction and then working it crosswise.

New grasses can be seeded any time in September. Timothy and smooth brome grass are excellent grasses to supplement blue grass. How much these grasses increase pasture output depends on the legumes to be used in the mixture and the amount and analysis of fertilizer used. The agronomists say that a good legume seed mixture to use per acre is two pounds of red clover, three pounds broadleaf trefoil and a quarter pound of Ladino clover.

The agronomists stress that a good application of commercial fertilizer is essential in pasture renovation. They recommend adding 400 pounds per acre of 0-20-10 or 0-20-0 fertilizer at the time of seeding. The phosphate and potash fertilizer helps get the seeding off to a good start, provides nutrients the legumes need most and boosts pasture production.

## Stork Shower In Honor Of Mrs. Dillard Mathis

Mrs. Dillard Mathis was honored with a stork shower September 2 at the home of Mrs. Other Mathis.

Refreshments were served to Mrs. Eugene Burd, Jarda Mathis, Louise and Carolyn Walston, Louella Smith, Alta Smith, Marguerite Curd, Imogene Creason, Ina Mathis, Nancy and Larry Cole, Clyde Tyree, Alice Lou Lane, Wilma Reed, Vera and Sue Ann Overby, Alva Mae Thompson, Athel Jarvis, Reva, Dometta and Michel Mathis, Ann Mathis.

Marilyn Creason, Janice Cole, Oma and Sylvia Wyatt, Letha Jarvis, Hester Stow, Mary Alice Judy and Matt Johnson, Hazel, Jerv and Shilvie Parks, Marguerite Mahen, Eva Lena Creason, Jessie, Donna, Faye and Jenny Reed, Maude Smith, Betty Reed, Ila Creason, June and Gene B. Wright, Helen and Joyce Smith, Ruth Filbeck, Clara Tyree, Meare Mathis, Ide Belle and Lynda Cole.

Those sending gifts: Betty Haley, Gussie Haley, Pat Creason, Clara Nelle Latham, Lela Shemwell, Edna Earl Reed, May Shemwell, Minnie Burnett, Lorene Parks, Daisy Burnett, Helene and Sarah Lane, Bobbie Rose, Ethel Holmes, June Faughn, Emma and Mary Helen Reeder, Maraline and Ena Ivey, Etta Reed, Floyce Cole, Edna Mae Burd, Ola Mae Treas, Sytha Mathis, Blanche Pawrence, Sue Owens, Marion Owens and Eula Burd.

## Around The Square

Speaking of sports. The record shows that Benton is generous. It supplied with them. Very few communities would be able to muster the great number of business and professional men that Benton did to 'man' the D-Nut Dunking machine at the fair. It would be almost impossible to list them and not miss a few so that will not be done, but the fine bunch of men who freely and willingly mounted the platform to let one and all throw baseballs at the trigger to 'dunk' them in the 4 ft. vat of water—sometimes one man got dunked six or eight times.

Orchids to Mr. and Mrs. Walter Travis on their observance Saturday of Fifty Years of Wedded Bliss.

During the months of April, May, June and July Marshall County had 12 drivers' license revoked and two cancelled for various traffic violations.

A TVA news release announces that a total of 151,483 trips was the official figure for fishermen in the tailwaters below Kentucky Dam for the 1950 fiscal year. This led all other areas. It rained two and a quarter inches in Benton last Thursday.

## Reunion Of Dyke Family Is Held

The 28th annual reunion of the Dyke family was held last Sunday at the home of Mr. and Mrs. H. E. Dyke, Gilbertsville Route 1.

The 1951 reunion will be held at the home Roy Gregory near Briensburg, but the time has not been set. Mrs. Gregory was a Dyke before her marriage.

Those attending the Sunday reunion were Messrs. and Mesdames Jake McEwen, Crow Houston, J. B. Holland, W. H. Vickers, Wilson Pace, Rudy Cox, H. T. Ruggles, John Dyke, Roy Gregory, T. H. Vickers, Curtis Holmes, George Locker, Lloyd Walton, Floyd Dyke, J. D. Collins, W. J. Brien, Ollie Chandler, Raymond Tatum, W. K. Chandler, Leslie Lowery, Wayne Wyatt, Ollie Cox, Glenn Dyke, Frank Noles, Jamie Noles, W. B. Kennedy, H. E. Dyke;

Mesdames Flora Ridley, Julia Hamilton, Florence Gibbs, John Houston, W. A. Moore, Myrtle Brown, Eva Newton, Arlie Ham, Ella Butler, Ty Goheen, Dora Gregory;

Misses Dora Dyke, Allie Gillman, Wanda Washam, Elaine Gregory, Martha Gregory, Ella Dyke, Laverna Moore, Lucille Dyke, Louise Dyke, Sue Chumler, Rachel Smith, Ruth Ham, Nonnie Butler, Verda Butler, Tince Wyatt, Edith Vickers, Bettie Manning, Ida Davenport;

J. B. Gillman, James Vickers, George Holland, Sr., J. K. Gillman, Robert Gregory, Lee Dyke, Percy Wyatt, Ezra Wyatt, and James Lee Noles.

## In Memoriam

In Memory of  
My Dear Husband,  
James Lawrence Jeter

In the silence of midnight I  
Awaken  
And sense that you're not by  
My side.

The world seems to be all  
Uncertain—  
The distance between us so  
wide.

Your voice should be here to  
assure me—  
Your patience to push away  
care.

Your love softly comes in the  
quiet—  
to tell that your heart is there.  
You're gone and I'm left here  
without you—  
the midnight is empty and  
still—  
Your memory steals over my  
being.

Your presence is here with me  
still.

Your loving wife ....

## Soil Conservation Notes

By Herbert Anderson  
Homer W. Ford worked out a complete soil and water conservation farm plan on his farm east of Calvert City this month. This made a total of 300 farmers who have signed cooperative agreements with the Marshall County Conservation District.

Sam Fooks, Sharpe, is putting a new face on a hill field in front of his house. The top half of the field is steep and is being seeded to permanent pasture. A diversion ditch has been built at the lower side of the pasture to protect row crop land farther down this slope. Below the diversion two terraces are to be built, to give added protection to strawberries.

Fooks, says "I won't have any short point rows after building a fence on the contour just below the diversion."

Delmo and Frank Harper, Sharpe, have built four diversion ditches to keep hill water off some bottom land fields. Open ditches were dug across the bottoms to drain the water from the diversions to the main creek. The Soil Conservation Service helped them survey the ditches.

Marvin Harper, east of Mt. Moriah Church, has dug a pond for stock water. Ground was so hard the bulldozer blade had to be tilted to dig enough dirt to finish the levee.

Charles J. Barrett, Possum Trot, says, "I believe that land can be paid for quicker if farmed in a way that will build it up rather than in a way which will mine it of all its fertility."

Soil conservation always pays off within five to eight years, says a University of Illinois economist. E. L. Sauer compared earnings of two groups of 40 farms each for the years 1945-47. One group practiced conservation and the other didn't. The conservation farms earned \$30 an acre more than ordinary farms. Sauer said the extra income "would almost have paid the entire cost of putting in a conservation plan."

## Around the County Farm Front

By J. Homer Miller

HAVE YOU LOST YOUR FARM? I saw several pastures of it isn't gone. Those muddy creeks and branches may have started on your farm. A green pasture lets very little water away. It nails it down and it can't move away. Row crop is costly in plant food and labor. They require a lot of fuel and with heavy rains, as we have had, they may both be lost.

RENLOE RUDOLPH purchased 12 Dairy cows on last week. "I want to try to get a high producing herd. I'll sell milk the old cow must give a lot to pay off." Renloie, "Grade A" at Paducah.

GOT MOVED OUT WEST of town on green hills and so if you start looking for me I won't be at the old location.

THERE HAS BEEN very little opportunity to see new crops or pastures the past few weeks. We should make plans to protect the land this winter anyway. It may dry up before long and we will have plenty of time for seedings in.

BOONE LYLES says, "I still have plenty of grass and no water. That is better than no grass and no water." Most everyone has grass and water this year.

AIR CURED TOBACCO is having a hard go this year. It will be plenty of tobacco that will rot or house burn if you can't cure it. Seems a lot will be lost in the field. It is out stove with the pipe running out the wall. Anything to do it out as there is no smoke on the tobacco.

PAUL BLAGG will leave Sunday for the Kentucky State Fair where he will represent this district in the 4-B class. Speaking contest Monday morning. Paul's expenses will be paid by the Bank of Marshall County.

THE DAIRY CALVES furnished by FFA Chapters made good showing at the county fair. It shows the quality of calves purchased by the Junior Dairy Cattle club of the county to place with these boys. They have good dairy animals.

THERE HAS BEEN very little hay harvested this year. Pastures are going to be doubly important this winter to place lost hay and grain. 100 pounds of ammonia nitrate per acre at planting is as a top dressing could give some good good returns on the investment. This fertilizer can be purchased at a reduced price before November 1. Disking legumes this is a good place to seed small grain. It will not only enrich pasture but will help the soil this winter.

HOWARD WILKINS and his neighbors built a 18 x 30 tobacco barn in one day except for hanging the doors. He said you couldn't have neighbors in this day and time. 20 of Mr. Wilkins neighbors pitched in and did the job.

Choose between Styleline and Fleetline Styling

Long flowing back-lines tell you that this beauty belongs to the Fleetline family. Pick the one that pleases you... Styleline or Fleetline. Both offer all the exclusive advantages of Body by Fisher. Both carry the same low price tag.

Chevrolet is the Only car to offer you such a *wide and wonderful choice* ... and at the lowest prices, too!

Choose between the Bel Air and the Convertible

Want the smartness and interior luxury of a convertible... plus a permanent steel top? Choose the Bel Air! With extra-wide windows and no sideposts, the Bel Air's the only car of its kind in the low-price field.

Want an automatic top that scoots up or down when you touch a button? Then here's the car for you! And you'll find this swank, spirited Chevrolet Convertible as far ahead in performance as it is in styling.

Want finest standard driving at least cost? Choose a Chevrolet with Silent Synchro-Mesh Transmission and the improved standard Valve-in-Head engine. You'll get the performance with economy that makes Chevrolet America's favorite!

Choose between Standard Drive and POWERGLIDE Automatic Transmission\*

Want the only automatic drive in the low-price field? Choose a Chevrolet with Powerglide automatic transmission and the great new 105-h.p. V-8 in-head engine. You'll get low-cost, no-shift driving that is easy, smooth and safe. \*Combination of Powerglide automatic transmission and V-8 engine optional on Buick models at extra cost.

## Before You Buy Your New Car

1. Know the delivery price of your car—fully equipped.
2. Know the amount of your down payment, including any "Trade-in".
3. Know the amount of your unpaid balance.
4. Know the amount of your finance charge.
5. Know the amount of your insurance premium—and the details of your protection.

Hundreds of thousands of new car buyers have saved money -- often substantial -- through the State Farm Bank Plan. There are two savings:

1. On financing through a local bank.
2. On insurance through State Farm.

Let us give you the rates BEFORE you buy your next car.

## Do you suffer distress from 'periodic' FEMALE WEAKNESS

With Its Nervous, Highstrung Feelings?

Are you troubled by distress of female functional monthly disturbances? Does it make you feel so nervous, cranky, restless, weak, a bit moody—at such times? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Women by the thousands have reported remarkable benefits. Pinkham's Compound is what doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs. Taken regularly—Pinkham's Compound helps build up resistance against such distress. It's also a great stomachic tonic! All druggists.

**Change of Life**  
If the functional "middle age" period peculiar to women makes you suffer from hot flashes, weak, highstrung, irritable feelings—try Pinkham's Compound to relieve such symptoms. It's famous for this purpose.

**Monthly Female Pains**  
Pinkham's Compound is very effective to relieve monthly cramps, headache, backache, when due to female functional monthly disturbances.

*Our Kind of*  
**FOREST MANAGEMENT**  
takes a tree crop *but*  
leaves the woods!

THERE was a time when the trees of the abundant American forests stood on land needed for villages and farms. Forests were removed both for their timber and so that the land might be used.

Today we have enough farm land. Our remaining forest areas can be kept at the job of producing successive timber crops.

Under modern perpetual-yield management the forests produce the things we need, but the forest industries keep the woods wooded. Through scientific cutting, maintenance of seed sources, and planting of nursery-grown stock, young, vigorous, forest growth replaces mature, slow-growing trees which need to be harvested.

This company and the forest industries generally have entered a period of managed, planned operations of the woods.

## Plant Food Added in Fall Boosts Wheat and Hay Production

OHIO agronomists recommend fertilizing wheat and meadow crops this fall with 400 to 600 pounds of plant food per acre.

They say this soil treatment will pay for itself in increased wheat yields alone.

What fertilizer to use depends on your crop rotation and the soil's productive level. Where wheat is grown in rotation with alfalfa or other soil-building, nitrogen-fixing legumes, the agronomists recommend fertilizer containing only phosphate and potash. They list grades such as 0-12-12 and 0-20-20.

For less productive soils, the agronomists recommend a complete fertilizer containing nitrogen, phos-

Well-Fertilized Soil Yields Bumper Wheat Crop.

phate and potash. Here they suggest grades such as 3-12-12, 4-12-8 or 4-16-8. Nitrogen is particularly needed where wheat is grown in rotations including mostly small grains, corn or soybeans. The agronomists say it is advisable to add nitrogen where heavy crop residues such as oats straw are plowed down for wheat.

# SHE'LL NEVER GRADUATE

This little girl is a "beginner." She has just entered the SCHOOL that will teach her HOW TO LIVE. She'll never graduate! No one ever does! For religious education is different from secular education. It has to fit its pupils for living every day the very best way. In such a course, there just isn't any point at which the pupil can be sure he has enough "learning" to put away his books. Therefore the Church Schools of our community provide classes for all ages. Every Sunday, while tiny tots are listening to Bible stories, grown-ups are studying the practical application of Bible truths in life. Religious education should be a family activity. Don't just send your children to Church School. Come with them. They need religious education because they must learn how to live. And you need it too, for life's richest possibilities are still ahead of you.

## THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Teen Age Chatter

By Joe Green

Ho, ho, ho and here again, back in the old writing mood, I wasn't that fair wonderment now and something like that would happen more often, this would be a pretty swell town.

Here is as actual report of the fair this 'ole boy counted 1,247 boys and girls. Now all you folks who say our kids won't stay home, if you give them something to do you see what happens. This fair goes to show this town can grow if it uses its head. The fair was good for the young and old, and you remember when you had the same fun in olden times? All together it refreshed and rekindled our minds.

Well so much for the 'ballin' out. You know I had a swell time last Wednesday at Memphis with Curtis/Grace. Tennessee is a worthwhile sight to see, it seems that every time we would get up in town, our meter time would run out and we would have to walk back and put some more money in. Say, we had a good time at Jack Henton's birthday party the other night.

## Tobacco Row

By Holmes Ellis

For our column this week we are pleased to present the second in a series of articles prepared by representatives of the tobacco trade. Mr. Autry Farer, Manager of A. P. Farmer and Company, Murray, Kentucky, who have for many years purchased snuff tobacco in the Western District offer the following suggestion. (Approximately one-fourth of a pound of snuff is consumed per person per year in the United States).

"For many years past and at the present time, growers of dark-fired tobacco who, by good intelligent effort, have successfully produced crops of heavy bodied, well fired tobacco, of medium to good quality, have consistently, one year with another, found an active demand and a profitable market for such tobacco from the domestic tobacco trade.

In view of the fact that we again find ourselves in the midst of another wet growing season it seems timely to review and stress the practices employed by some of our most successful producers who have made an art in their pursuits of growing, curing and handling tobacco. From first hand observation derived from regular visits, year after year, to most of the farms throughout this area, there appears to be a definite conclusion that in order to produce heavy bodied tobacco, it is necessary that the crop be fully ripened and mature before cutting, and in a growing season such as we have this year, much patience will be required on the part of a grower to allow his crop to stand on the hill as long as possible, to obtain this desired result.

The next highly important

## Cherry Grove:

By Effie Bowden

This scribe has plenty to be down in the mouth about this Monday A. M. Seeing is believing, yes seeing as is, the little grandsons Noel and Larry, as well as sons Harris and Neal and wife had been home on the week end, this scribe left Friday A. M. returning Sunday late, after attending an association of Primitive Baptists in Trigg County, missing out on their visits.

Seeing the happy faces and hearing the merry voices of the Walter Travis family of Route 3 in the celebration of their Golden Wedding day, knowing Sunday was my very own wedding anniversary, not a flower, not a gift, not a cake, yes, down in the mouth. Mrs. Travis did give me a nice slice of their Gold and White cake, these lines should be addressed to son Harris and the Neal Blaggs, well do the little tykes know their mam is a peculiar, strange, church going mam, I've left them keeping the house, sawing the wood, plowing the corn, feeding the hogs and milking the cows, buying the groceries, selecting their clothes, ironing, scrubbing and sorting 'em out, building their plans, going their way, while I sat singing how firm a foundation ye saints of the Lord in some secluded forsaken looking little spot, all over God's green earth, from Maine to California, from Canada to the beautiful deep south of our own state, these little tykes, this Blagg bunch of mine, they know that seal and stamps, kept their ma singing while they fought out one war, World War Two, when the six of them were in khaki and blue, they know this seal will carry them and their ma also thru this communistic revolt which is on.

Traveling thru Sharpe Monday enroute to Paducah, we met the bride and groom, Mr. and Mrs. Brodie Vaughn, congrats, and its congrats to Mr. and Mrs. L. E. Poe, a new boy, one month old, named Larry Parks Poe. Mr. Poe, the dad of little Larry is with the Navy and is on the U. S. S. Cobler submarine. Mrs. Ruth Parks says "Surely you have lived an exciting and interesting life". Yes and no, Mrs. Parks.

Nice seeing the new home of Mr. and Mrs. Watson Phelps, I see the name is Hill Top Acres. Mr. and Mrs. Walter Barefield have just returned from Arkansas. Mrs. Barefield visited her only sister Mrs. Merinda Nichols Howard, whom she had not seen in 46 years. Uncle Ruffin Dishman tells me the oldest man in the Sharpe Community is his Uncle Bert Dishman who is now 90 years young. Nice chat with Mrs. H. D. Wilson telling me of a new store by the Petersons just across from her home on Route 6, we wonder if its an addition to Polma or Sharpe. Mrs. Hazel Jones says I mailed a bundle of Tribunes this morning to Cora and Cleve Overby who resides in Alamogordo, New Mexico, they formerly were old Gilbertsville folks.

step is to exercise much care in rules cannot be universally in cutting and housing. Tobacco is due to varying conditions of curing and to location District are to be greatly of curing barns.

Generally accepted, the best practice is to start fires soon after tobacco is in the barn, using stages, depending upon ventilation and circulation of air as an assisting agency to heat from fires, to bring the tobacco safely through the danger stages of houseburning. Barns constructed with side and top ventilators are most advantageous in handling this condition, although great good can be accomplished in un-ventilated barns by periodic opening of doors at intervals of a few minutes at a time during the early stages of curing process or until the danger of house-burning is past. Tobacco growers should exercise utmost care in using every precaution to prevent sweat and houseburn as it is a well recognized fact that damage from "sweat" and houseburn is costing Western District Tobacco Growers thousands of dollars every year.

handling is now a most important factor and is a sure-fire divided payer if properly done. Many of our top growers

are now assorting their crops into three classes, leaf, second, and lugs. In so doing the leaf tobacco is more valuable to the buyer, having been cleaned of thin second leaves and defective tobacco and will demand a better price and there is always a good trade demand for clean seconds and lugs.

Finally, it become all tobacco growers to use every care and precaution possible to see that their crops are delivered in good keeping order and condition as wet tobacco is penalized in price by both the trade and the grading service. Thus by adhering to this last important step before selling, growers can make or save themselves many dollars each year."

Miss Blanche Booker of Louisville returned last week to resume her teaching position in the Louisville public schools after a visit with her sister Mrs. Joe Darnall and Mr. Joe Darnall.

Mrs. D. E. Barker of Louisville is visiting her daughter, Mrs. Joe Darnall and family. Mrs. Booker has just returned from Albuquerque, N. M.

Miss Mae Jones, Public Health Nurse has received a scholarship in Mental Health and left Monday for Louisville for a six weeks course at Louisville-Jefferson County Health Department. The course is under direction of Miss Helen Natwick of United States Health Service.

### Forage Yields Upped 500 Per Cent With Lime and Fertilizer

"GET reckless with fertilizer if you want to make the most profit from crop and pasture land," advises Ray Wetherell, Fairfield county, Ohio, dairyman. He says it is cheaper than paying for extra land and labor.

Wetherell practices what he preaches, for he used about 60 tons of fertilizer last year, reports Dr. D. R. Dodd, Ohio State University extension agronomist. Wetherell has found that it pays to add just as much fertilizer to pasture land as to crop land. By renovating a badly rundown permanent pasture two years ago, he increased production fivefold. On this field he seeded a nurse crop with a mixture of alfalfa, Ladino clover and brome grass. At seeding time he added 400 pounds per acre of 3-12-12. Then at the beginning of the second year he top-dressed with 500 pounds per acre of 6-12-12.

High quality hay and pasture, plus expert grazing management, are key items in the success of Wetherell's dairy farm, says Dr. Dodd. Wetherell figures his 60 Jersey cows will finish the year with a herd average of more than 400 pounds of butter fat.
